

FOREIGNERS ALL WANTING PAPERS

Moline Aliens Rushing Court Clerk for Applications to Become American Citizens.

CAUSED BY THE FACTORIES!

Persistent Rumor of Moline Factory Demands is Denied by Official Today.

A persistent rumor that all Moline factories are demanding that employees be American citizens is believed to be the reason for the great increase in the number of applicants for naturalization papers.

According to George Schrader, clerk of the Moline city court, he is being literally swamped by the foreign born populace. Schrader is authority for the statement that Saturday afternoon the clerk ran out of application blanks and was forced to send a hurry up call to Rock Island for more. Saturday evening 48 more foreigners had filed applications with the intention of becoming citizens of the United States.

Has Good Effect. When questioned in regard to any preference being shown among the factories, a factory official said this morning that he knew nothing of any such action being taken by the factories collectively or individually. "But," he added, "I believe it would be a good thing at that."

Toes Taken Off. Reo Martin, resident of Moline, had all of the toes of his right foot cut off when he fell from a train which he was trying to board at the Ninth street crossing in that city yesterday morning about 8 o'clock. He was taken to the Moline city hospital where Dr. A. H. Arp attended him.

ALIEN LABOR LAW IS DECLARED VOID

Highest Court Finds Arizona Statute Unconstitutional in Land Case.

Washington, D. C., Nov. 1.—The Arizona anti-alien labor law was today declared unconstitutional by the supreme court.

The supreme court's decision affirms the decision of a special circuit court which also held the law unconstitutional. Much attention was attracted to the case because several foreign governments had protested against the law and because of its similarity to the land legislation in California, which restricts the ownership of real estate by Japanese.

While not exactly like the California situation, many lawyers have looked forward to the Arizona decision for what indications it might give of what view the highest court might take of the California law if it ever got into litigation.

The Arizona law was enacted by the initiative vote of the people of Arizona and made it unlawful for any employer of more than five persons to employ less than 80 per cent qualified electors or citizens of the United States. The case passed on by the court was one in which an Austrian in Bisbee, Arizona, sought to enjoin his employer and the state from enforcing the law as to him.

Justice Hughes in announcing the court's decision said it had already been established that aliens in this country were entitled to the equal protection of laws.

SUMMON ELEVEN ON INFORMATION

Five Rock Island, Five Moline and One East Moline Man to Appear in Federal Court.

Five Rock Island men, five Moline and one of East Moline were today summoned to Peoria, where they will appear before the United States court to answer to information lodged before the federal grand jury.

Carl Naah, Hans and Gus Schroeder, John W. and Henry W. Tremann of this city, and Olof M. Ohlsson, William Stlund and John Jung, of Moline, are accused of technical violation of the inspectors' act relating to interstate commerce in meat.

Harold Hartmann, Moline, is accused of defrauding by use of the mails. John Needham, Moline, arrested in Davenport, is alleged to have rifled and stolen mail.

The name of the East Moline man could not be learned, but it is said that he is proprietor of a meat market and is accused of violating the meat inspectors' act.

The more serious of the cases is against the two Moline men, relative to the use of the mails. Details of the charges are lacking. Deputy Marshals Williams and Metcalf, who were here serving papers, refusing to give any information as to the accusations.

The charges of violation of the meat inspectors' act is one of a comparatively minor nature. While not definitely known, it is understood that the information is based merely on neglect of the meat market owners to cancel government stamps on lard buckets.

NAB POSTOFFICE CLERK IN PEORIA

Arrest of Robert L. Black, it is thought, Will Explain Disappearance of Letters.

The arrest on Saturday afternoon of Robert L. Black, employe of the Peoria postoffice, on a charge of theft of special delivery letters and parcel post packages, will be of special interest here because of recent complaints lodged with local postoffice authorities, relative to the disappearance of special delivery mail, sent from here to Peoria and from Peoria here. It is thought the apprehension of Mr. Black will solve the matter.

Postal authorities who have been working on the case for several weeks deposited a number of decoy special deliveries in the shoot Saturday and Black is said to have been caught in the act of removing them. When called before Commissioner Elliott Saturday he waived hearing and was placed under \$1,000 bonds. He was unable to give surety and was locked in the county jail.

Black resides at 1055 Huriburt street, Peoria, and is 22 years old. He is married. He formerly was a resident of Beardstown, coming to Peoria about six years ago. He first had charge of a mail wagon, and two years ago he was admitted into the postoffice. Black performed a number of minor duties in and about the office. Sometimes he came in contact with the cancelling division where letters are received, and it was here that he is said to have committed the thefts.

Government officials connected with the case stated that they did not know exactly the amount of money that went to Black in this way, but it is in the neighborhood of \$1,000.
